

Oyster Party

13 September '09

Kompaszaal Loods 6 • KNSM Laan 311 • Amsterdam KNSM Eiland

On the 13th of September in 2009 it will be precisely 400 years to the day that Henry Hudson discovered Manna-hata. A paradise-like island situated in a natural harbor at the gate to the “new world”. Surrounded by waters full of fish and oysters, the colony New Amsterdam was founded, present day New York. In years to come the oyster would play a significant role here!

Celebrate the history of New York, Amsterdam, and the oysters at an Oyster Party! More information and reservations can be made at www.slowfoodamsterdam.nl

Oyster party organized by Slow Food Amsterdam and Slow Food New York City in conjunction with NY 400
